

Sending Console Commands

To send console commands first click on your instance and make sure you are on the Console page.

Once you are on the **Console** page you will see a large box in the centre of the screen that may have a lot of text in it. Below the large box there will be a text box with the words **Enter your command or message here and press enter to send**, if you click on this text box you will be able to type commands such as `/op playerName` and to send the command all you need to do is press then enter key on your keyboard.
